**Subject:** Question about Dimock data

Scott- Rob Helverson from ATSDR would like to know who to talk to about the high levels of methane in some homes along Meshoppen Creek Road, outside the existing AO  
Levels all over 28 mg/l methane. A couple homes don't have vents and have high sodium too. Who should he talk with to make sure safety issue is addressed. Thanks!

Karen D. Johnson, Chief  
Ground Water & Enforcement Branch
